Products - Robot Vacuum Cleaner - P20

AIRROBO P20

Gyroscope Navigation Robot Vacuum Cleaner

Simplified but not Simple

P20 thoroughly picks up debris at suction power 2800Pa, delivering the highest cleaning efficiency rate at 99.2% *. Coming with Scraper™ Technology designed for ultimate dust extermination, the P20's floating scraper strip allows the suction inlet to be a perfect fit for uneven floors, deeply cleaning even the fine dust from tile gaps.

Cleaning

*P20 has the highest cleaning efficiency (percentage of debris picked up) in the category of robot vacuum cleaners under \$200 using the testing methodology adopted from IEC-ASTM 62885-7-2020 with 3 garbage types (rice, dust, dog hair) and 3 floor types (hardsurface, low-pile carpet, mid-pile carpet). Internal laboratory data.

Products - Air Purifier - AR400

AIRROBO AR400

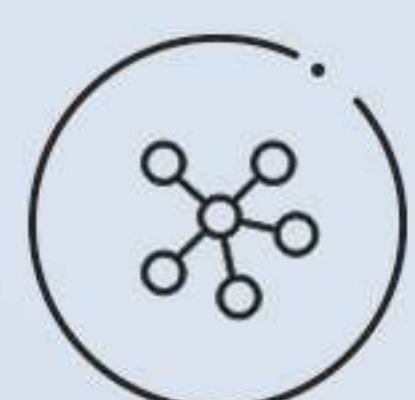

True HEPA Air Purifier

Essential for fine living

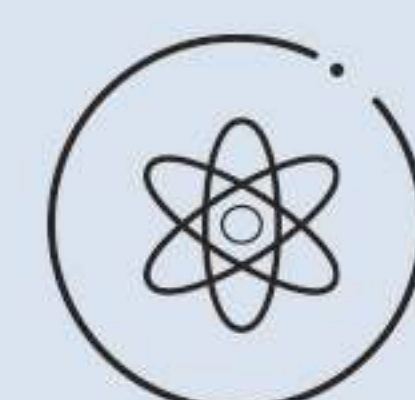

AR400 features CADR 300m²/h (188CFM), which is 50% higher than competitive products. Tres Air™ Filtration technology empowers AR400 to realize superior performance with 3 lines of defense: Pre-filter, HEPA filter, Enhanced activated carbon filter, blocking large and small particles, over 99.97% allergens especially for the particles at 0.3 microns.

Products - Cat Litter Box - C10 Pro

AIRROBO C10 Pro

Smart Self-Cleaning Cat Litter Box

No risk of entrapment of the cat

The integrated litter collection structure of AIRROBO C10 allows the litter collection bin to safely rotate with the roller, while the traditional one forms scissor-type openings which causes high risk of cat entrapment. It has wide space with a low entrance which is very friendly to old cats, fat cats, short-legged cats and cats with mobility problems. 10 integrated high-precision sensors and cameras work together to sense environmental changes at all times and care for your cat at every moment.
